To Whom It May Concern:

This is to certify that Hong Dau Construction Company was one of the nominated and approved contractor for Hong Kong Adventist Hospital projects since 2003. We are pleased to announce that Hong Dau will continue to be appointed and their service will be considered for projects in the hospital.

Some of the awarded contract after tendering process include:
Hospital external wall repair and maintenance with upgrades and painting in July 2003.
Other projects include hospital roof demolition, canopy installation and structural spalling works.
In November 2007 Hong Dau was one of the company tendering for the hospital multi million 8/F A&A extensions and construction.

On behalf of HK Adventist Hospital, I highly recommend Hong Dau Construction Company for other ventures based on their professional approach and ability to meet expectations. We have found the management to be reliable to provide a quality service in term of proposal and site management.
